switch fix simple Post-secondary demo with all new features

Transitioned from Plan to Build mode Agent 3

Completed tasks 4 / 4

✅ **Review & Edit disabled**: The card is now greyed out with:

- 50% opacity for a disabled appearance
- Grey background and border colors
- Grey icon and text colors
- "Not allowed" cursor to indicate it's disabled

✅ **Paid plan message**: When users click the Review & Edit card, they'll see an alert saying "Review and edit only available with paid plan" and the navigation is prevented.

The testing confirmed everything is working correctly - the cards are in the right order, the styling looks properly disabled, and the alert appears when clicking the Review & Edit card without navigating away from the dashboard.

Checkpoint made 1 minute ago

Rearrange dashboard layout and restrict edit access for non-paid users
